Trees do their part... Let's do ours!

Energygy Canada Ltd. plants trees across Ontario to thank customers for caring about the environment.

Brantford Ontario, August 01, 2008. Energygy Canada Ltd announced today that it will partner with Tree Canada to plant trees across Ontario for each pre-retrofit ecoENERGY evaluation performed by Energygy Canada Ltd. within the Ontario marketplace.

Energygy Canada Ltd is a company devoted to customer's awareness of energy efficiency within their home, and has always placed conservation and the environment at the forefront of their organization. "When we conduct an ecoENERGY audit on people's homes, we make them aware of how their home can become more efficient. Now we can bring that full circle by bringing that awareness outside into the gardens of Ontario's forest" says Chris Nyssonen, President of Energygy Canada Ltd. "It is a striking testament to show gratitude in the form of planting a tree; a permanent statement of the company's commitment towards a healthier and more eco friendly Ontario." says Nyssonen.

Tree Canada is a charitable organization established to encourage Canadians to plant and care for trees in urban and rural environments. "Trees have always been part of the solution for conserving energy in and around Canadian homes," says Michael Rosen, President of Tree Canada. "It was only natural for us to partner with a forward-thinking organization to promote energy efficiency with tree planting. With Energygy Canada Ltd., we will be able to save energy as well as grow clean air for all Canadians to enjoy."

To date Tree Canada has engaged Canada's top companies, public agencies, individuals and volunteers to support the planting and maintenance of trees. This year Tree Canada will celebrate its 75th million tree plant. To-date the organization has greened more than 400 schoolyards, hosted seven national urban forestry conferences, signed on 30 carbon neutral conferences and other efforts to sensitize Canadians to the benefits of planting and maintaining trees. More information about Tree Canada is available at www.treecanada.ca

Energygy Canada Ltd. is comprised of a team of energy advisors that provide individualized energy efficiency solutions for homeowners. Our goal is to provide strategies to home owners for reducing current energy bills, protecting them from rising energy costs and adding value to their home.
